FICTIONAL TRAINING DOCUMENT

Sample Management Summary Case

Use this scenario for Prompt 5 and Lab 5-style productivity practice.

Case background

The Ethics team has completed an initial review of a procurement complaint involving a facilities vendor. The preliminary review covered 18 purchase requests, eight sample invoices, approval records and the original complaint.

Preliminary observations

Area	Observation
Vendor concentration	14 of 18 purchase requests were linked to the same vendor.
Approval timing	Several approvals occurred after the recorded service date.
Pricing	Two invoices have higher unit prices than comparable invoices in the sample.
Documentation	Two purchase files are missing supporting attachments.
Relationship allegation	A personal relationship was alleged but has not been verified.
Current status	Initial assessment only; no final finding has been made.

Participant task

Use Copilot to create a five-point management summary of no more than 150 words. The summary should distinguish observations from allegations, identify key risks and state what decisions or next actions may be required.
